MEMORANDUM FOR: Mr [REDACTED]

12 September 1958

25X1A

SUBJECT : [REDACTED] Organizations

**REFERENCE : Memorandum for SA/PD/DCI, dated 9 September 1958,
TCS-3720-58**

25X1A 1. I had an illuminating discussion yesterday with [REDACTED] who just
returned from a trip in company with Lt. [REDACTED] and
[REDACTED] You should be sure that Colonel [REDACTED] is aware of his
25X1A views and findings before he [REDACTED] takes on. I had a written report from
25X1A Rod which I believe [REDACTED] should read before he goes even if he does
not have a chance to talk to Rod.

25X1A 2. It is the view of Messrs. [REDACTED] at the present time
[REDACTED] seems to be doing an extremely good job. On the other hand
[REDACTED] argued with a variety of difficulties which [REDACTED] can explain
if he has not already done so.

25X1A 3. One suggestion which I would make (which is my own rather than
[REDACTED] is active it should have a clear
25X1A priority over [REDACTED] and it should draw such supplies and personnel from
5X1A the latter location as [REDACTED] may need. This might make it possible to
25X1A support a fully adequate effort at [REDACTED] in its periods of activity without
trying to find the funds and personnel to support two such units in the European
25X1A Theater. This suggestion is made in ignorance, of course, of the require-
ments that may be levied on [REDACTED] other than from CHALICE. I make
the suggestion because when [REDACTED] is operational and is handling the take
from CHALICE, our Project generates no requirement for [REDACTED]
